

# Vietnam: Study Visit from Vietnamese delegation 25th–31st of August

Aligning with the objectives of Vietnam National Energy Efficiency Program, the Ministry of Industry and Trade and the Ministry of National Resources and Environment have been actively searching for alternatives for its electricity production and consumption. From the 25th to the 31st of August, a Vietnamese delegation conducted an inter-ministerial study tour with the Danish Energy Agency to acquire new ideas based on Danish technical and economical expertise in the area of renewable energy and energy efficiency.
