IF23 calls announcements.

Invite for National Info Day on the EU Innovation Fund Call and Auction

On January 18th, Danish stakeholders are invited to a National Info Day on the recently opened EU Innovation Fund Call and the first EU Innovation Fund Auction.

Recently, the EU Innovation Fund launched a new call with a € 4 billion budget (IF23 Call) and the first EU-wide auction (IF23 Auction) for the production of renewable hydrogen totaling € 800 million.

In this light, Danish project developers, project promoters as well as other interested stakeholders now have the opportunity to attend a high-level orientation day and receive guidance about the IF23 Call and IF23 Auction.

The event, organized by The Danish Energy Agency in cooperation with the European Climate, Infrastructure and Environment Executive Agency (CINEA) and EU Commission's Representation in Denmark, takes place in

Copenhagen on the 18th of January 2024.

One-to-one sessions

In addition to the general orientation, the info day also offers attendees the opportunity of a 20-minute one-to-one session, where Danish project developers and project promoters interested in applying for this program at the current open call and auction.

During these session it will be possible to discuss project proposals and ask representatives from CINEA specific question.

The project developers can get detailed information on the call for applications, e.g. potential project outline and questions related to the call text in general, but not project specific questions.

Please note that there are limited time slots for the one-to-one sessions, where separate registration is necessary.

Time slots will be allocated on a first come first served basis. If a time slot is available, project developers will receive a confirmation e-mail with further details regarding the one-to-one meeting.

Event details and registration

Event details

Venue Danish Energy Agency
Carsten Niebuhrs Gade 43, 1577 Copenhagen V, Denmark

Date Thursday, 18th of January 2024

Time Info meeting: 13:00-15:00 CET
One-to-one sessions: 09:00-12:00 and 15:00-16:00 CET
