Janni Torp Kjærgaard
Deputy Director General, DEA

The 8th Danish Oil and Gas Licensing Round

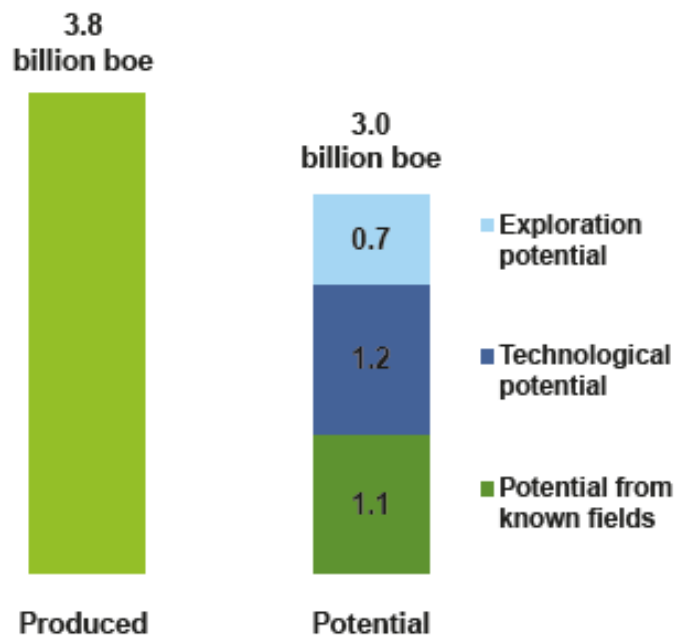

Trine Mønsted, Head of Division

Oil & gas production and consumption prognosis

Strategy 2017

The future oil and gas sector in Denmark

Main conclusions

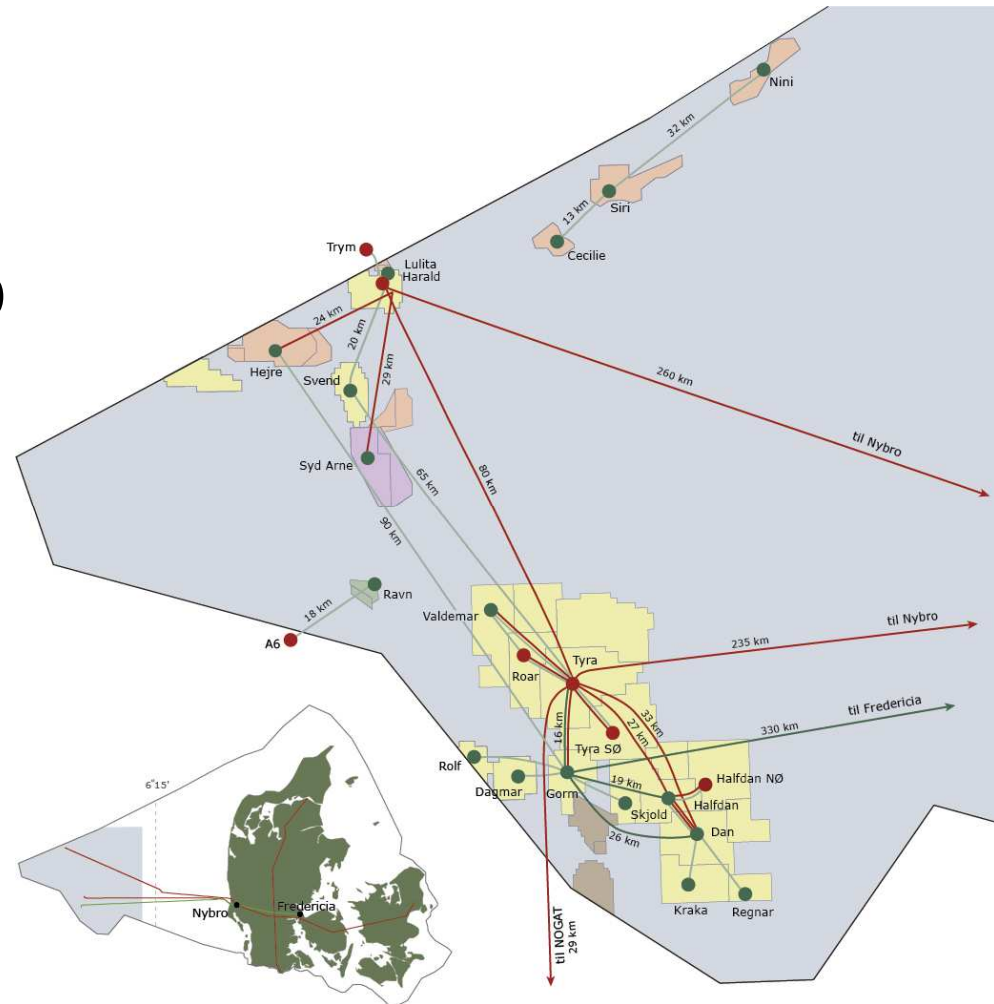

- Significant potential
 - Relatively small discoveries
- Rely on existing infrastructure
- Better third party access
- Frequent licensing rounds

North Sea Agreement

March 2017

- Rebuild of Tyra, the main gas export hub
- Improved 3rd party access possibility
- Investment window 2017-2025
- Funding for green initiatives
