

Facts on the result of the tender for solar PV with an installed capacity of less than 1 MW

The Danish Energy Agency (DEA) called for bids in the tender for solar PV with an installed capacity of less than 1 MW on 13 September 2018, with a deadline for bids on 1 November 2018. The budget for the tender was DKK 107 mio. kr. (2018 prices). It is expected, that contracts corresponding DKK 62,2 mio. kr. (2018 prices) will be signed. The weighted average of the winning price premiums is 12,97 øre/kWh. In total, the Danish Energy Agency received 18 bids from 11 tenderers regarding 21 installations of a total of 21.1 MW.

Winner	Price supplement (øre/kWh)	Capacity (kW)	Share of budget (pct.)	Municipality
Middelfart Sustain ApS	10,00	999	2,0	Middelfart
